Lineg SA to be relocated to Hinwil

BELIMO Automation AG, which produces electrical actuators for heating, ventilation and air-conditioning systems, is planning to relocate the operations of Lineg SA, its Gland-based subsidiary, to Hinwil by the end of 2006. Lineg SA currently employs 28 members of staff. The majority of these employees will be offered new jobs in Hinwil, with efforts being made to achieve a socially acceptable solution.

Belimo's aim in implementing this relocation is to simplify its sales, development, production and administration processes.

Lineg SA is a member of the Belimo Group. Belimo is a leading global manufacturer of innovative electrical actuator solutions for heating, ventilation and air-conditioning systems. The Group achieved sales of CHF 253 million in 2004 and employs over 800 people. Information regarding the company and its products is available on the Internet at www.belimo.com. BELIMO Holding AG shares have been traded on the Swiss Stock Exchange since 1995 (SWX: BEAN).
